CONNECTION

WIDE RANGE OF WIRE MESH SOLUTIONS

Wire Weaving Dinxperlo has been an international manufacturer of various types and sizes of wire mesh for 100 years. We manufacture semi-finished products like woven and welded wire mesh and various types of filters and sieves. We supply these products both from stock and on customer demand. We also perform finishing processes like powder coating, galvanizing, rolling, annealing, ultrasonic or alkaline cleaning in our own factory. With our extensive range of equipment, knowledge and experience, the possibilities are endless.

WIRE WEAVING DINXPERLO IS...

Craftsmanship

The knowledge and dedication of all our professionals is woven into our mesh.

Loyalty

Since 1917, Wire Weaving Dinxperlo has provided a solid foundation which has connected us to our customers for years.

Unique

We work in a very unique way. We put our teeth in and keep going. We don't stop until we are satisfied. Which results in solutions with which we set the tone worldwide.

We're already well connected in the following sectors:

- horticulture
- design
- construction
- burners
- aviaries
- EMI/RFI shielding
- filtration
- machine construction
- oil & gas
- screen printing
- shipbuilding
- packaging
- automotive
- food industry
- chemicals

ENDLESS CONNECTION

We love to connect. Whether it concerns connecting with people, connecting with clients or simply connecting wire! We seek long-lasting connections that our clients can rely on!

Woven wire mesh

With our team of experienced professionals and our modern machines and tools we produce the most diverse metal weaves. All to be produced through various weaving techniques (square weave, twill weave, broken twill weave and Dutch weave). This means the possibilities are endless.

Possibilities	Woven wire mesh
Mesh opening	5 micron - 50 mm
Wire diameter	20 micron - 4 mm

Welded wire mesh

Wire Weaving Dinxperlo produces a wide range of welded wire mesh. Very fine to relatively heavy specifications. Thanks to our versatile machine park and our large stock of metal wires, we can produce infinite specifications enabling us to meet virtually any demand.

Possibilities	Welded wire mesh
Mesh opening	5.0 mm - 250 mm
Wire diameter	0.5 mm - 5 mm

Filters and sieves

With our team of experienced professionals we produce a wide range of filters and sieves from woven and welded wire mesh. Before we start with the design and engineering we discuss all considerations and details. All filters and sieves are custom made.

Possibilities	Welded wire mesh
Mesh opening	5.0 micron - 50 mm
Wire diameter	20 micron - 4 mm

Available materials

AISI304(L), AISI316(L), AISI430, AISI904L, INCONEL®, INCOLOY®, MONEL, HASTELLOY®, brass, copper, iron, aluminum, spring wire, galvanized, galfan and many more.
