# WIRE WEAVING DINXPERLO

## Dutch water management

Water is a crucial element in life, agriculture, industry and energy. The best protected delta in the world is proof that the Dutch know how to deal with water. Our water-knowledge is a strong foundation for many state-of-the-art water-handling solutions worldwide.

## Woven wire mesh for water

For three generations, we have been designing, developing, manufacturing and engineering woven wire mesh for cooling and drinking water installations. Our custom-made wire mesh and filter elements provide a solution for any water filtration challenge. We supply water wire mesh in rolls as well as fabricated engineered parts.

Product	Woven Water Wire Mesh.
Application	Cooling- and drinking water installations.
Openings	Various precise sizes (mm), from 5 µm up to 25 mm.
Material	Stainless Steel AISI 304L and various alloys. Galfan upon request.
Wire	From 20 µm up to 3 mm.
Properties	Solutions for every water-filtration challenge. Produced in accordance with customer requirements.
Delivery	In rolls or fabricated engineered parts.
Quality	Top Dutch quality, highest precision. Production according to ISO 4782:1987, ISO 3310:2000 and ISO 9044:1999.
