## Declaration of RoHS Compliance (2023)

*Dinxperlo, 13<sup>th</sup> January 2023*

RoHS stands for Restriction of Hazardous Substances, and impacts the entire electronics industry and many electrical products as well. The original RoHS, also known as Directive 2002/95/EC, originated in the European Union in 2002 and restricts the use of six hazardous materials found in electrical and electronic products. All applicable products in the EU market since July 1, 2006 must pass RoHS compliance.

Directive 2011/65/EU was published in 2011 by the EU, which is known as RoHS-Recast or RoHS 2. RoHS 2 includes a CE-marking directive, with RoHS compliance now being required for CE marking of products. RoHS also added Categories 8 and 9, and has additional compliance recordkeeping requirements.

Directive 2015/863 was published in 2015 by the EU, which is known as RoHS 3. RoHS 3 adds four additional restricted substances (phthalates) to the list of six.

We hereby declare that the products/articles supplied by Wire Weaving Dinxperlo are manufactured according to the RoHS legislation 2015/863, and do not contain hazardous substances in a higher concentration than mentioned in the RoHS directive. The RoHS directive restricts the use of the following hazardous substances:

Lead (Pb)	Polybrominated Diphenyl Ethers (PBDE)
Mercury (Hg)	Bis(2-Ethylhexyl) Phthalate (DEHP)
Cadmium (Cd)	Benzyl Butyl Phthalate (BBP)
Hexavalent Chromium (Cr <sup>+6</sup> )	Dibutyl Phthalate (DBP)
Polybrominated Biphenyls (PBB)	Diisobutyl Phthalate (DIBP)

This statement is based on information provided by Wire Weaving Dinxperlo suppliers and is accurate to the best of our knowledge.

Best regards,

  
L. Hallen
